

Space-Age Living

Building the International Space Station

Mission Basics

What
is it?

Why
is it being built?

Who
is building it?

When
will it be complete?

Where
is it right now?

How
will astronauts
live there?

Putting It Together

schooladventures/spacestation](http://school.discoveryeducation.com/schooladventures/spacestation)

What can you do:

- Research on the parts of the space station
- Understand why it is important
- Learn who is making it
- Find out when it will be finished
- See where the space station is right now
- Think about what it would be like to be an astronaut that lives there
- Watch a movie on how all the pieces work together

Watch how
all the pieces
will come together
